

Intellectual creations are the creations of intellect of the human beings. The intellectual Property Rights have swept the whole world in this millennium year. They are playing the key role in the lives of individuals, business entities and the national economies of the countries in the world. There were times when the worth of the individual entrepreneur and the business entities were assessed in terms of their physical assets. Now-a-days, it is not so. The number of copyrights, patents, trademarks, trade designs and geographical indications play a pivotal role and help in assessing the potential. Innovation and inventions form the key background to the creation of IPRs. The Seminar will offer a great opportunity to discuss the various facets of IPR and initiate a healthy interaction among the intellectuals to make IPRs effective in the national economies of the Nation and the international trade as per TRIPS.

SUB-THEMES OF THE SEMINAR

- Intellectual Property Rights Drives Economic Growth and Competitiveness
- Intellectual Property Rights create and Support High Paying Jobs
- Strong and Enforced Intellectual Property Rights Protect Consumers and Families.
- Intellectual Property Rights Generate Breakthrough Solutions to Global Challenges.
- Intellectual Property Rights Encourage Innovation and Reward Entrepreneurs
- Effect of IPR Regime on the Pharmaceutical Industry of India and the World.
