## **INTERNATIONAL CONFERENCE ON EMERGING ISSUES AND CHALLENGES IN AIR AND SPACE LAW**

Saveetha Institute of Medical And Technical Sciences is based in Chennai, Tamil Nadu state of Southern India. Saveetha Institute of Medical And Technical Sciences is one of India's Leading Education Machineries, and the largest Specialist Centre for Education of all disciplines like Medicine, Dental Surgery, Engineering, Physiotherapy, Nursing, Law and Management. The Infrastructure, Programmes, Accreditations and Partnerships further reaffirm the University's leadership position in the motherland.

Saveetha School of Law is a brain child of the Founder's of Saveetha University. To promote legal education with the global standard in mind and to produce committed legal professionals for those who are interested in pursuing legal education and not finding institutions to satisfy their requirements. SSL has been initiated to fulfill this demand and decided to take up the challenges and not just to promote as lawyers or law makers but social engineers. Our mission is to impart world class legal education with excellent infrastructure and committed staffs so as to fulfill our vision.

SSL as determined to mould the inherent talent of youngsters by encouraging the students and providing them the best of academic resources and facilities and our students encouraged to broaden their horizons through various activities like Seminar, Workshops, guest lectures, moot and mock trial and conferences (National and International). The current conference is to introduce awareness on the emerging jurisprudence of Air and Space.

### **SCOPE OF THE CONFERENCE**

Air and Space Law encompasses National and International Law governing activities in Outer Space. The inception of the field of Air and Space law began with launch of World's first artificial Satellite by Soviet Union and it has evolved and assumed more important as mankind has increasingly come to use and rely on Air and Space Resources.

The primary goal of this Conference is to provide a platform to exhibit emerging issues and challenges in air and space law and also intend to bring eminent Academicians, Researchers, Lawyers, Scientists and Engineers and Students to share their Knowledge. This will help in bringing out the innovative ideas and Research outputs of legal and technical aspects of the conference theme.

### **OUTCOME OF THE CONFERENCE:**

One of the fundamental questions is where Outer Space begins, this topic has been debated since several decades, and however there is no firm answer, in spite of various approaches and theories that exists. With the advent of Air and Space tourism the time may soon approach where legal professionals need to demarcate a boundary between Air and Outer Space, as we witness there is a conflict between State sovereignty verses Freedom in Outer Space or the Celestial Bodies. The Universally recognized principle of Air and Space Law is "The exploration and use of Outer Space shall be carried out for the benefit and in the interest of all Nations.. And shall be province of all Mankind".

This conference is therefore not only a forum for legal studies but also for Researchers, Scientists and Engineers can exchange their knowledge and Experience and as an educational channels for students and others who would like to learn more about recent trends in Air and Space Laws.

## TWO DAYS INTERNATIONAL CONFERENCE ON EMERGING ISSUES AND CHALLENGES IN AIR AND SPACELAW

### SUBTHEMES:
